

Permission for SPARK! Follow-up Story

(To be completed by an authorized representative from the charitable organization)

Congratulations on your personal efforts to SPARK the world, through a combination of DDI technology and a DDI certified facilitator’s time. Our goal is to encourage DDI clients and associates to light a SPARK around the world. In order to achieve this we would like to share SPARK successes as widely as possible and request the following permissions:

1. A story about the impact of DDI’s solution on your charitable organization (via a form, survey, and/or interview initiated by DDI);
2. Permission for DDI to share your story, along with your name and the names of others involved in bringing the DDI workshop to your organization, possibly in future versions of DDI’s SPARK book and/or on SPARK website;
3. Permission to share pictures or videos that you or the DDI certified facilitator may have taken at the workshop, if you choose to provide them;
4. Permission for DDI to share the name of your charitable organization (e.g., future versions of SPARK book, the DDI website, or other publications).

Please submit your completed form to SPARKgrants@ddiworld.com
