SOLUTION:
Ignite Your Impact: Women in LeadershipSM

YOUR VALUE:
Deliver a successful and measurable leadership development program that boosts gender diversity in your company and leverages the power of allies.

VALUE TO LEADERS:
Current and emerging women leaders develop skills to build confidence, strengthen their networks, and build their leadership brand. In addition, all leaders can learn to be allies to women.
"After going through the program, one participant shared that she had applied and was offered a job within our organization she wouldn't have applied for previously because she wouldn't have felt like she was qualified."

Vice President,
Human Resources Operations, Sparrow Health System

## WITH IGNITE YOUR IMPACT YOU CAN:

## Develop Critical Skills to Advance Women Leaders

There are unique obstacles that face women leaders at all levels. Give women the skills to tackle these systemic barriers head-on.

## Create a Strong Leadership Pipeline for Women

Companies that have at least $30 \%$ women in leadership roles are $12 x$ more likely to excel financially and $1.4 x$ more likely to have sustained profitable growth.

## Activate Allies for Women Leaders

Equipping women with the skills and resources they need to tackle obstacles is important, but without a strong culture of allyship and inclusion, these efforts can only go so far. Empower your executives, managers, and colleagues to be allies to women with programs that uniquely focus on what allies can do to champion women.

## Align Diversity Strategy with Talent Strategy

Research has proven that companies with gender-diverse workforces are more adaptable and innovative and have access to a broader range of skills and experiences.
